**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 2, it is unclear as to whether or not the presence of component (D) is now required given that the previously recited content of 0 to 50 parts by weight has been canceled.

In claims 1 and 2, the recitation of component (D) is indefinite in that it is unclear as to whether said component relates to the recited monomers as such, that is, in their unreacted form, or a copolymer derived from said recited monomers.

In claims 1 and 2, the use of the indefinite term “maleinimide-based”, as opposed to “maleimide-based” is queried.

In claims 9, 10, 19 and 20, it is unclear as to whether or not the recited “a rubber polymer” is referring to the rubber polymer component (B). As presently recited, said material does not distinguish over component (B).

***Claim Rejections - 35 USC § 102/103***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-22 stand rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over U.S. 6,274,243 (Nakajima et al).

#### ***Response to Arguments***

5. Applicant's arguments filed December 18, 2007 have been fully considered but they are not persuasive.

Regarding component (C) applicants main argument is that presently claimed molecular weight defining component (C), allegedly corresponding to a reduced viscosity of 0.55 to 0.83 dl/g, is discouraged by Nakajima et al. Attention is, however, directed to patentees' use of copolymer discourage the use of copolymer C-i with a reduced viscosity of 0.65, which would clearly fall within applicants' reduced viscosity range (Table 1).

As to graft polymer (B), it remains the position that patentees' corresponding component would appear to meet all limitations governing applicants' component (B) given its similarity thereto. There is at present no evidence of record establishing that the product of the present claims is not the same as or obvious from that set forth by the reference. In any event, Nakajima et al's silence on the molecular weight is tantamount to disclosing that all molecular weights (inclusive of that presently claimed) would be satisfactory to use absent a showing of criticality thereof.

#### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
